70 3600 MAIL ROOM

Sir:

This responds to the Office Action mailed July 31, 2001 and is mailed within the two month period following.

This response is intended to put the application in as good a condition for allowance as possible and notify the examiner of applicant's decision to appeal the rejection of Claim 1.

Accordingly, kindly amend the claims as follows:

2. A detachable trolley and mop bucket combination comprising a mop bucket supported by wheels thereon and movable over a floor surface and a trolley having a frame adapted for carrying cleaning supplies, the trolley supported by wheels thereon for moving over a floor surface, the trolley and the bucket separately and independently movable and having a connection between them for selective attachment to securely connect the mop bucket to the trolley so that the combined trolley and bucket can be easily maneuvered by one person, the trolley having spaced front legs terminating in wheels and forming a recess there between with the mop bucket sized to fit at least a portion of the mop bucket within the recess so as to nest between said spaced front legs.
